

Hydro is a complete care line for dehydrated, sensitive, combination skin. Our products are formulated using carefully selected active ingredients with proven effectiveness.

As not every skin corresponds exactly to one specific skin type, we recommend combining products from our six different care lines as needed. Your esthetician can advise you as to which combination of products best suits your individual skin.

Calming effect after exposure to the sun. Hydrates and reduces redness.

### Aloe Vera After Sun Milk

Cooling, moisturizing body lotion after sun exposure. Reduces tension and protects from dryness.

### Bronze Power

Self-tanning lotion that provides a natural, streak-free glow until it will be renewed by invisible scaling.

Dr. Spiller  
BIOCOSMETIC

HYDRO  
DEHYDRATED,  
SENSITIVE,  
COMBINATION SKIN

**Jojoba Peeling Cream**  
Gentle exfoliator refines the skin texture with fine jojoba wax grains. Dead skin cells are gently removed, blood circulation is stimulated and excess surface oil is removed. Supports and improves the effect of products that follow. To be used once or twice weekly.

**Aloe Sensitive Cleansing**  
Alkali-free wash gel for a mild cleansing. For a deep yet cleansing effect without depriving the skin of its natural moisture content.

**Sensitive Toner with Aloe**  
Mild toner to balance the pH value. Aloe vera is hydrating, protects from UV radiation and has a soothing effect after overexposure to the sun.

Dehydrated, sensitive, combination skin often has fine pores. The cheeks are dry without sufficient blood circulation. The main goal for this skin type is to balance the moisture deficit and protect the skin from environmental influences. Aloe vera, an ingredient found in many of our products, can correct these issues. Also, the products in our Hydro line help to counteract premature aging, which this skin type is particularly prone to.

Hydration,  
protection and  
care for increased  
elasticity and  
resistance

**Aloe Vera Jelly**  
Unique gel formulation hydrates, protects and nourishes. To be used morning and evening as a moisturizer. Also an ideal basis for make-up application.

**Oxygen Vital Serum**  
Concentrated, revitalizing serum to soothe and stimulate the cell metabolism. For increased elasticity and a fresh appearance. To be applied before day-/night cream.

**Oxygen Vital Complex**  
Soothing, hydrating emulsion restores impaired skin function and prevents irritation. With aloe vera and vitamin E for a smooth, regenerated complexion. Also an ideal basis for make-up application.

**Aloe Day Cream**  
Hydrating day cream with a high content of aloe vera. Nourishes and protects the skin from environmental influences.

**Vitamin C-Plus Day Cream**  
Day cream with a select combination of active ingredients to protect from free radicals and counteract premature aging of the skin.

**Aloe Night Cream**  
Balancing night cream with a high content of aloe vera and sea silk to regenerate and improve elasticity. For a soft, supple complexion.

**Vitamin C-Plus Night Cream**  
AHA-enhanced night cream to prevent premature aging of the skin. Intensive care protects from free radicals and preserves the natural moisture deposit in the skin.

**Q10 Oxygen Complex**  
Light, matte cream prevents irritations and UV-related premature aging of the skin. With patented bio-compound CQS for a radiant appearance.

**Hydro-Marin® Cream**  
Concentrated intensive care with marine ingredients. With brown algae extracts and sea salt concentrate to hydrate the skin.

**Honey St. John's Wort Cream Pack**  
Calming mask with precious active ingredients. Irritations and redness are rapidly soothed; the skin becomes soft and supple. To be used once or twice weekly as needed.

**Aloe Vera Concentrate Ampoules**  
With pure aloe vera extract for all types of irritation or redness. Soothing after overexposure to the sun, hydrating, tightening and refreshing. To be applied with preference as cure treatment.
