

The Sensitive line is a complete care program for hyper-reactive, sensitive skin prone to allergies. Our products are formulated using carefully selected active ingredients with proven effectiveness.

As not every skin corresponds exactly to one specific skin type, we recommend combining products from our six different care lines as needed. Your esthetician can advise you as to which combination of products best suits your individual skin.

Dr. Spiller  
BIOCOSMETIC

SENSITIVE  
HYPER-REACTIVE,  
SENSITIVE SKIN  
PRONE TO ALLERGIES

#### Dr. Spiller Wash Cream

Universal cleansing cream for morning and night cleansing of the face and body. Select mild ingredients loosen dirt particles, scaly skin and make-up.

#### Hydro-Marin® Freshener

Refreshing toner with algae extract and panthenol. Supports the skin's naturally acidic protective layer and stabilizes the pH value.

#### Jojoba Peeling Cream

Gentle exfoliator refines the skin texture with fine jojoba wax grains. Dead skin cells are gently removed, blood circulation is stimulated and excess surface oil is removed. Supports and improves the effect of products that follow. To be used once or twice weekly.

#### Hydro Active Gel with ATP

Refreshing gel with ATP, the energy supplier of the cell. For increased resilience and a fresh appearance. To be applied before day-/night cream.

#### Collagen Intensive Care

Concentrated serum for face, neck and décolleté to correct moisture deficit. To be applied before day-/night cream.

#### Oxygen Vital Serum

Concentrated, revitalizing serum to soothe and stimulate the cell metabolism. For increased elasticity and a fresh appearance. To be applied before day-/night cream.

#### Oxygen Vital Complex

Soothing, hydrating emulsion restores impaired skin function and prevents irritation. With aloe vera and vitamin E for a smooth, regenerated complexion. Also an ideal basis for make-up application.

#### Moisturizing Cream

Soothing day cream with moisturizing factors. Natural protection with a light bronze tint due to high content of carotene.

#### Hydro Collagen Cream

Light day cream with soluble collagen to improve the skin texture. Increases elasticity and resilience. For a fresh, radiant complexion.

#### Collagen Cream

Light night cream with soluble collagen for more vitality and resilience. Supports the natural skin functions.

#### Special Revitalizing Cream

Rich night cream enhanced with panthenol. Balances moisture and lipid content to relieve tension and smooth fine lines.

#### Sanvita Cream

24-hour cream with green tea, ginseng and olive oil extract to calm and soothe the skin. For a visibly fresher complexion.

#### Q 10 Oxygen Complex

Light, matte cream prevents irritations and UV-related premature aging of the skin. With patented bio-compound CQS for a radiant appearance.

#### Sanvita Mask

Hydrating mask with green tea, ginseng and olive oil extract for a smooth, calm complexion. To be used once or twice weekly.

#### Oxygen Vital Cream Mask

Soothing mask to revitalize skin exposed to environmental influences. To be used once or twice weekly for optimum effects.

#### Collagen Ampoules with C+E+S Marine Complex

Native collagen, marine elastin and silk from the sea revitalize and increase the natural moisture-binding capacity of the skin thereby reducing transepidermal water-loss. To be applied with preference as cure treatment.

Hyper-reactive, sensitive skin prone to allergies is thin, fine, dry and often easily disturbed by environmental influences or stress. This results in inflamed areas and feeling of tension or itchiness. We recommend mild care products to balance and strengthen the skin's resilience and counteract premature aging. Our well-balanced active ingredients activate the skin's own defensive powers.
