

The Soft line is a complete care program for young and normal skin. Our products are formulated using carefully selected active ingredients with proven effectiveness.

As not every skin corresponds exactly to one specific skin type, we recommend combining products from our six different care lines as needed. Your esthetician can advise you as to which combination of products best suits your individual skin.

Self-tanning lotion that provides a natural, streak-free glow until it will be renewed by invisible scaling.

SOFT YOUNG AND NORMAL SKIN

Dr. Spiller
BIOCOSMETIC

Protection and care to preserve natural beauty

Young and normal skin has fine pores, is soft and supple without scales or oily shine. Sebaceous and sweat glands function normally and leave a protecting cover on the skin. However, due to environmental influences, it is still important to support and protect the natural barrier functions of the skin.

Cleansing Milk with Peach Extract
Mild, creamy emulsion with peach extract. Supports the skin's pH value and protects natural peptides. To be used before the toner.

Jojoba Peeling Cream
Gentle exfoliator refines the skin texture with fine jojoba wax grains. Dead skin cells are gently removed, blood circulation is stimulated and excess surface oil is removed. Supports and improves the effect of products that follow. To be used once or twice weekly.

Peach Toner
Mild, refreshing toner. Restores the natural pH value, soothes and balances. All cleansing products, even water only, have an influence on the acid cover of the skin.

Gel Aloe Vera
Universal moisturizer with pure aloe vera. Cooling and protecting after overexposure to the sun or whenever the skin needs extra moisture for regeneration.

Roseflower Hydro Gel
Intensive moisturizer for face, neck and décolleté with a high content of roseflower distillate. A moisture deposit that protects and tightens. To be applied before day-/night cream.

Sensitive Beauty Care Day
A mild, regenerating day cream that protects from environmental influences. With precious avocado and grape seed oil as well as calendula and arnica. A particular mild day care.

Collagen aqua plus
Light moisturizer that leaves the skin hydrated and refreshed. Collagen counteracts the aging process and preserves the elasticity of the connecting tissue. To be used in the morning. Also an ideal basis for make-up application.

Sensitive Beauty Care Night
Soothing, mild night cream with plant- and flower oils which penetrate and stimulate the skin functions overnight. Resilience and elasticity are improved.

Azulen Cream
Grape seed oil and extracts from the chamomile have soothing effect when skin is stressed, irritated or has been overexposed to the sun. Also good for couperose. To be used whenever a calming effect is necessary.

Fresh & Fruit Moisturizing Cream
Light, matte cream with papaya, mango and pineapple extracts rich in vitamins, minerals and enzymes. Very hydrating and refreshing.

Azulen Cream Pack
A nourishing, calming and regenerating mask with extracts of chamomile. To be used once or twice weekly as needed.

Fresh & Fruit Moisturizing Mask
Refreshing gel mask with papaya, mango and pineapple extracts. Cooling and refreshing. To be used once or twice weekly.

Moisturizing Ampoules
Concentrated ingredients to increase the moisture-binding capacity of the skin. For increased elasticity and resilience and a fresh appearance. To be applied with preference as cure treatment.
