

A new body experience

Algae Body Mask

Active substances, which ensure that your body skin is soft and smooth, are won by Dr. Spiller from the sea. Swathed in algae extracts, the entire body tissue is stimulated and supplied with moisture for a naturally beautiful figure.

Hydro-Marin® Body Polish

The wealth of active substances from the sea can also be used to heighten one's sense of well-being. Trace elements and minerals vitalise and smooth your body skin. Salts activate metabolism and aid the skin in its functioning. An intensive mud treatment purifies and detoxifies.

Special Treatments

With our innovative care products and the treatments based on them, visible results can be achieved very quickly.

- Breast lifting
- Enzyme body pack
- Pore-deep cleansing for the back
- Fleece treatment pack for the hands
- Hand modellage
- Hand treatment mask
- Foot treatments
- Skin treatments for men
- After-sun treatments

Cellulite Body Slimming Treatment

For slim, flawless legs and firm buttocks, the treatment has an intensive firming and strengthening effect on the tissue and is specifically aimed at stimulating the breakdown of fat.

Aroma Balance

The treatment firms and smoothes the connective tissue and stimulates metabolism. A blessing for dry skin and skin lacking moisture – relaxing and tension-reducing.

WELLNESS
CONCEPT

We would be happy to give you a thorough personal consultation to help you choose the very best treatments to suit you.

Radiant, firm, velvety smooth skin over your whole body; what a delightful feeling! By combining healthy nutrition and regular exercise with the Dr. Spiller Wellness Concept, you can achieve a completely new body feeling. A good figure and radiant skin are not a matter of chance. Regular use of the new Dr. Spiller wellness body treatments will convince you of their effectiveness through the results they achieve.

Newly conceived combinations of active substances activate the whole skin metabolism. The skin tissue is stimulated into eliminating waste products and the skin becomes smoother. Cellulite is thereby reduced and the specific body contours are firmed with active substances such as Kigelia africana and algae extracts. The Dr. Spiller Wellness Concept in body care offers an innovative way of preventing the development of and counteracting individual problem areas.
